Multifunction Column Guard

The Multifunction Column Guard is designed to protect large building columns and pillars from impacts caused by forklifts and other material handling equipment. With asymmetrical on-site adjustment from 250-700mm, it can be tailored to fit various column sizes by simply cutting the rails.

Flexible protection for columns and pillars

The modular design allows for quick installation and easy repairs while ensuring a tight fit to save space. These guards are built to stop vehicles like forklifts, protect columns, and withstand heavy use. At the end of their life, they can be easily and quickly disassembled, and materials separated for sustainable disposal.

Key Features:

- **Asymmetrical Adjustment:** Accommodates widths from 250mm to 700mm, offering flexibility for various column sizes.

- **Customizable Dimensions:** Easily tailored by cutting the rails that form its sides, providing a precise fit for any environment.
- **Impact Resistance:** Effectively stops vehicles, such as forklifts, eliminating or minimizing damage.
- **Floor Protection:** Shields flooring around columns to maintain structural integrity.
- **Ease of Installation and Repair:** Designed for quick setup and effortless repairs when needed.
- **End-of-Life Sustainability:** Simplified disassembly and material separation for eco-friendly disposal.
