

# Multifunction Column Guard

The Multifunction Column Guard is designed to protect large building columns and pillars from impacts caused by forklifts and other material handling equipment. With asymmetrical on-site adjustment from 250-700mm, it can be tailored to fit various sizes.

## Flexible protection for columns and pillars

The modular design allows for quick installation and easy repairs while ensuring a tight fit to save space. These guards are built to stop vehicles like forklifts, protect columns, and withstand heavy use.

### Key Features:

- **Asymmetrical Adjustment:** Accommodates widths from 250mm to 700mm, offering flexibility for various column sizes.
- **Customizable Dimensions:** Easily tailored by cutting the rails that form its sides, providing a precise fit for any

environment.

- **Impact Resistance:** Effectively stops vehicles, such as forklifts, eliminating or minimizing damage.
- **Floor Protection:** Shields flooring around columns to maintain structural integrity.
- **Ease of Installation and Repair:** Designed for quick setup and effortless repairs when needed.
- **End-of-Life Sustainability:** Simplified disassembly and material separation for eco-friendly disposal.
